FEDERAL TROOPS TO QUELL MINGO RIOTS

trip through the disturbed Sunday night and Monday. He painted the situation so alarming that Governor Morgan sent a midnight appeal to President Harding, requesting immediate aid. To him request addressed to the president and Secretary of War Weeks, the governor quoted the adjutant general as reporting that, during the trip, he commanded the armed bands to disperse, but they refused to do so, and continued to maintain pickets on the roads along the boundary line of the two counties.

Chicago and Ohio railroad trains have been stopped and a transport contingents to armed camps and telephone wires have been cut and steps taken to prevent re-establishment of communication, the governor said his emissary had told him.

Communications Broken.

Efforts to communicate by telephone with Blair and Sharples have been hampered for several days. Adjutant General Charnock's communication on the mission, A. C. Porter, United Mine Workers' executive board member, came to Chicago on the state official train.

He gave a gloomy account of conditions. His startling report to C. F. Keeney, president of District 17, United Mine Workers of America, said:

"With all males from 14 to 60 under arms, women and children fleeing in panic over the line into Boone county, armed bands of 2,000 men, looting and every available conveyance carrying supplies to the picket posts in the hills, the Sharples and Blair sectors may well be compared to the early days of the world war."

"On the northern side of the mountain lies the camp and main force of the miners. Similarly situated on the southern side are the Logan county deputies and state police. The miners have advanced picket lines in the hills."

"Should these men clash, it would mean to battle 2,000 men. Along the tops of the ridge are trenches and breastworks of rocks and felled trees."

N. P. LEAGUE HEADS MAY BEAT RECALL

Threaten to Resign Before
Facing Popular Vote in
Dakota.

(SPECIAL TO THE GAZETTE.)
JANESVILLE, N. D.—A new element was injected into North Dakota's political arena last night. There is a possibility that Gov. Lynn J. Frazier, William Lemke, attorney general, and John M. Hanson, commissioner of agriculture and labor will resign and thus prevent the holding of a recall election, which would endanger Non-partisan League control of state affairs.

The resignations would operate in this manner: Lemke and Hanson would resign first and Governor Frazier fill their positions by appointment.

Then Frazier would resign and Edward Wood, lieutenant governor, a Nonpartisan, would succeed to the governorship.

Wood might recall Frazier. The recall election would be held on November 1, the date proposed for the election, would be possible and circulation of new positions against the successors to present officials would not be completed in time to order an election much prior to next June, when the state primary is held.

By this scheme, which some observers of state affairs profess to regard as likely of execution, the Nonpartisan League element would insure its control of state affairs for a year and two months from November 1.

Furthermore, the submission to the people of the group of proposed laws would be aimed at closing the Bank of North Dakota, would be prevented until the primary election in June, 1922.

Limit Proposals Would Carry.
If the recall election is held, and the number of signers for the recall is sufficient, these limited laws and the constitutional amendment, will be voted upon November 1. Leaguers themselves admit the proposals will be adopted and within thirty days after November 1 the process of liquidating the Bank of North Dakota would be under way.

There is only one element that stands in the way of carrying out the league's program, and that is the possible effect of the proposed laws on the league's organization program outside of North Dakota.

However, on this score another element enters, namely: League leaders are not concerned with the league's activities beyond the confines of this state. They are interested only in the development of the league's program in the national organization and are not likely to consult A. C. Townley and others in the national headquarters as to the possible effect of the resignation plan.

An Acknowledgment of Defeat.
The resignation plan, if carried out, would be an acknowledgment of defeat and a surrender of the political position of the state that it may be difficult to persuade Frazier, Lemke and Hanson to accept, no matter what their political advisors at the state Nonpartisan League headquarters think of the plan.

Out in the state there is general discussion of the probabilities of a general resignation of the officials and a Nonpartisan League resignation of the officials have been offering to do for them in no recall election.

In the meantime the attacked state officers are prosecuting a vigorous campaign throughout the state in defense of their positions. Governor Frazier has toured the northwestern section, Lemke is touring the southwest district and Hanson is being a tour of the state for several weeks. Obviously these tours are in the interest of the sale of state bonds, with a view to financing the recall of North Dakota. Accounts of meetings these men have addressed, however, indicate their whole attention is given to the political issues, with special emphasis laid upon the recall election.

Expect 50,000 Signers.
It is the present plan of the state committee that is prosecuting the recall election campaign to file the petitions about September 13. That will insure the holding of the election on November 1.

The petitions, already carrying more than seventy thousand names, will have approximately eighty thousand when filed. Circulators still are working in the field, and reports to the independent headquarters in Fargo are that the circulators are meeting with general success.

VOICE OF THE PEOPLE

Editor Gazette:

I notice with some considerable misgivings that the mayor is elated over a reduction in the cost of educational schools by \$2,007. Of course we can save on expense for schools and "the claret."

But I want to know is whether we are going to cut the rest of the mayor's auto down for 1922. That would have saved taxpayers something like \$2000 in 1920 and 21.

Is it fair that schools should be run in order that will be free. I for one would rather pay a few dollars more for trade schools and a few less to get a nice pretty upholstery like what the mayor got in his car.

I'd like to know what has become of this case anyhow. Didn't the city attorney have an opinion that the car couldn't be paid for by the city if it wasn't running all the time in the city work? Why has the council dodged this? Have not heard much about it. It looks as though somebody were afraid to say anything to hurt somebody's feelings but what do they care for the man who has to pay taxes on less wages? I'd like to know. FIRST WARD TAXPAYER.

LEAVES NOTE; LEAPS OVER NIAGARA FALLS

Niagara Falls, N. Y.—A man described as weighing 170 pounds, partly bald and wearing a white shirt and dark suit went over Luna Falls Monday.

The body was slung half an hour after it had passed over the brink on a ledge of rock between the American and Luna falls, below the gorge bank.

Over three and three-quarter miles of territory are involved in the movement and hundreds of sightsees

The phenomenon has been progressing for nearly a year with gradually increasing acceleration. One scientific explanation is the presence of an abnormal quantity of water in the chalky limestone core of the mountain causing the collapse of great caverns and the slipping of strata.
